Erickson/Stone Spring Work to Impact Traffic on I-81

Harrisonburg, VA — As part of the continuing work on the Erickson Road/Stone Spring Avenue Construction Project, steel girders will be set in place across Interstate 81 on Wednesday night, October 19.

Work will begin at eight in the evening and be completed by six on Thursday morning.

The girders are being set for the Stone Spring overpass bridge in this area. As this work will span both directions of I-81, motorists should expect delays and rolling road blocks in all north and southbound lanes in the area of Stone Spring Avenue.

Should inclement weather prevent crews from working Wednesday night, the girders will be set beginning Thursday evening at eight and ending by six on Friday morning.

For more information about the Erickson Road/Stone Spring Avenue Project please visit, www.ericksonstonespring.org.
